

T-12

T-12 is a 12-strand single braid that is comprised of 100% Technora® and is characterized by very high tensile strength, very low stretch, zero creep, and excellent resistance to heat. T-12 comes standard with a black urethane coating.

Available Colors

Applications

- Lifting sling / utility
- Mooring stopper
- Safety lifeline

Features

- ✓ Very high strength
- ✓ Very low stretch
- ✓ Very high melting point
- ✓ Spliceable

Technical Data
