PERFORMANCE

Reliable bundling and pallet stability
without compromising your corrugated board.

Whether small bundles or pallet units – with Teufelberger's high-quality strapping solutions, your products are secured reliably and efficiently. Our precisely matched TEWE® PP S & SoPRIM and TYCOON® PET straps ensure top quality, consistent strap tension, and maximum protection of corrugated board – for smooth and uninterrupted production processes.

- Maximum quality consistency for smooth operations
- Constant strap tension without deforming the flute
- High productivity thanks to fast cycle rates
- Perfect pallet integrity due to high initial tension
- Machine compatibility with a wide range of Teufelberger straps. Mostly plug-and-play ready

SAFETY

gentle strapping for sensitive corrugated products

Teufelberger strapping solutions are designed to protect your packaging and your people. TEWE® PP straps with low edge deformation and TYCOON® PET HT straps with consistent tension are particularly suitable for sensitive corrugated products.

- Gentle handling - minimal edge deformation
- Prevention of cuts and damage to your packaging

SUSTAINABILITY

to safeguard the future of the environment

- Recyclable materials and resource-saving innovations
- Teufelberger is committed to circular economy principles
- Our PET straps are made from 100% recycled material and are fully recyclable
- Our PP straps are made up to 40% of recycled material
- Additionally, TEWE® SoPRIM® offers an S-band alternative with reduced material usage
