TEUFELBERGER

EXPERTISE FROM 225 YEARS OF EXPERIENCE

What started back in 1790 with simple hemp ropes has since evolved into a globally successful group of enterprises specializing in the development and production of fiber and steel wire ropes, strapping, and composites.

Vast diversity

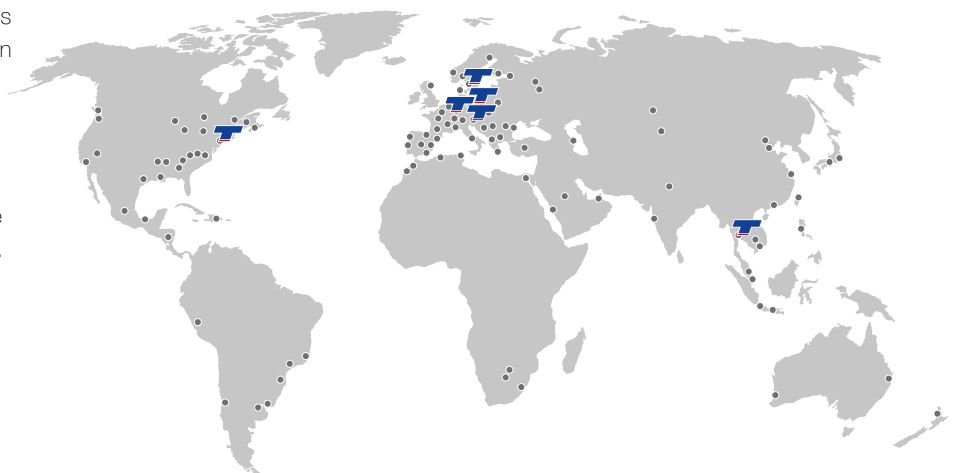

Its products are designed for a wide variety of applications ranging from cranes and marine applications to packaging and through to the automotive sector. It is the continuity and stability of a family business that makes us the reliable partner who supports you, competently and effectively, in coping with your daily challenges.

Global presence

ensures customer proximity

Manufacturing operations in various countries allow us to meet local quality and certification standards as well as customer requirements without difficulty. From our sites in Austria, the Czech Republic, the U.S., Sweden, and Thailand, and backed by a close-knit global network of distribution partners, we continue to satisfy the expectations of our customers.

Innovative solutions through synergies

TEUFELBERGER is a leading specialist for fiber and steel wire ropes, strapping, and fiber composite components. The spectrum of technologies in TEUFELBERGER's portfolio generates various synergies between the extrusion of thermoplastics, braiding of high performance fibers, and processing of wires into ropes, strapping, and lightweight composite components.

Especially fiber and steel wire products brought about valuable synergies with regard to both application and manufacturing technologies, which have benefited our customers tremendously. This makes TEUFELBERGER your ideal partner right from the project planning phase.

5 % of TEUFELBERGER's employees are active in research and development and make sure that our customers have access to the latest, innovative rope technologies. 10% of the entire investment volume are committed to development and quality assurance.

TEUFELBERGER

HQ PRINTING SOLUTIONS

Wherever high packaging standards are called for, TEUFELBERGER fulfills them in a unique and innovative way. TEUFELBERGER is able to customize your product's packaging via our high quality printing technologies. The printed straps are suited for both fully automatic strapping machines and hand tools. Working together with you, the TEUFELBERGER team will determine the best strapping and printing solution for your company and your purpose including a layouting service.

CUSTOMER BENEFITS

If you have any specific requirements which are not offered within our standard printing solutions, please contact us and we will try to find a solution for you.

! * The barcode functionality depends strongly on the type of strap you choose (color, surface) and the application you are running and thus needs to be checked base by case. No hazardous substances according to REACH regulation.

TEWE® & TYCOON®

HQ DIGITAL

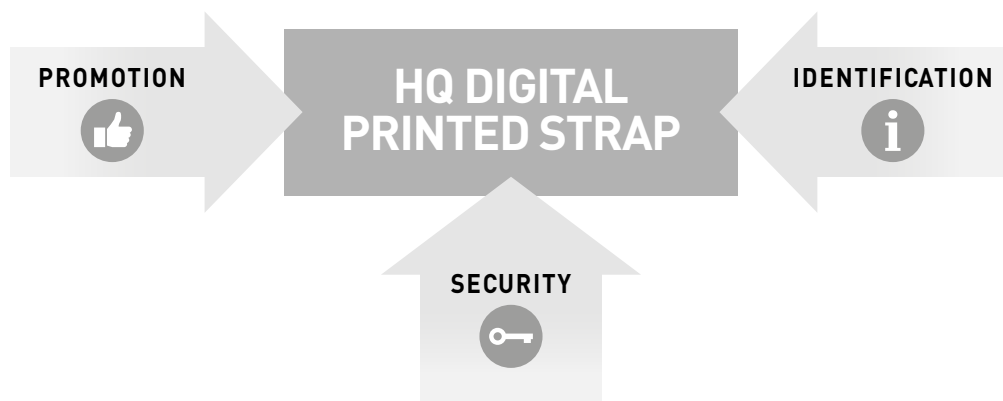

TEUFELBERGER has developed a **cutting edge printing technology** which offers you unique differentiation possibilities from your competition. Our innovative high quality printing technology is able to print photorealistic pictures in various colors on a strap.

For more than 45 years, TEUFELBERGER has been setting the benchmarks in the extrusion of polypropylene and polyester straps and now we are the first ones to introduce this brand-new technology on the market.

Together with you, we will create the best strapping layout and find the right strap for your individual purpose and need. Within the layouting service we create layout proposals for you in order to transmit your promotional message in the most attractive way.

FULFILLING 3 PURPOSES WITH 1 STRAP

Design your own
strap layout!

TEWE® & TYCOON®

HQ PRINTING SOLUTIONS

HQ MONO

HQ Mono enables us to print your strap individually in a high quality by using a **one color** print technology. With our printed strap you can display a promotional message in addition to protecting the goods. HQ Mono is perfectly suitable for larger **PP** lot sizes and applications where one color prints are sufficient.

Features

- Text
- Logos

Type	Dimension*	Core
TEWE®	8 – 16 mm	200/280/406

*Other dimensions on request.

Design your own
strap layout!

HQ INKJET

HQ Inkjet is able to print black text or numbers on **PET** straps and thus this technology is perfectly suitable whenever running numbers are needed.

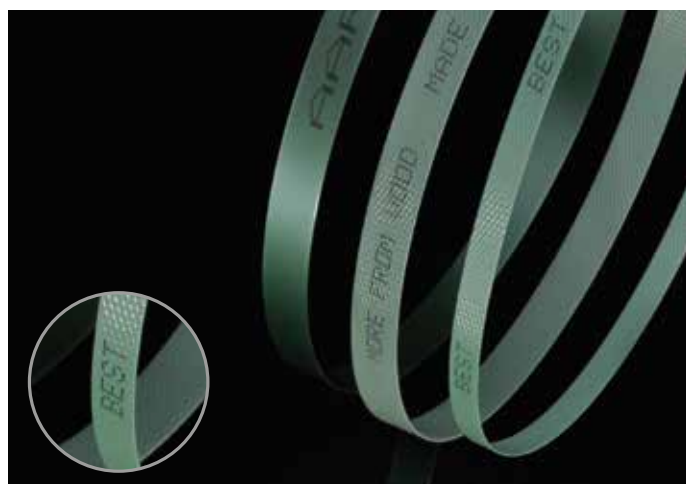

TEUFELBERGER also offers approved AAR (Association of American Railroads) straps.

Features

- Text
- Running Numbers

Type	Dimension*	Core
TYCOON®	9 – 32 mm	406

*Other dimensions on request.

YOUR BENEFIT WITH TEUFELBERGER
