

V-12

12-strand single braid of 100% Vectran®. Highest strength, lowest stretch and creep of any other 12-strand. V-12 is treated with a proprietary urethane coating for improved abrasion resistance.

Available Colors

Applications

- Any high strength, low stretch application

Features

- ✓ Good fatigue resistance
- ✓ Easily spliced
- ✓ No creep
- ✓ High temperature resistance

Technical Data

Ø Diameter		Circumference inch	Weight		Breaking Strength	
mm	inch		g/m	lbs./100'	Minimum lbs.	Average lbs.
3	1/8	3/8	6.80	0.46	1,600	2,100
