

# STRAPPING - THINK CIRCULAR!

PET strapping consists of recycled material from PET bottles. 'Reuse - Reduce - Recycle' means to recycle as much raw material as possible. This is why we process strapping wastes and, by doing so, also reduce CO<sub>2</sub> emissions.

**A strapping shredder for PET and PP strapping helps recycle strapping wastes in a space-saving and simple manner.**

## better.safe Advantages

### Safety

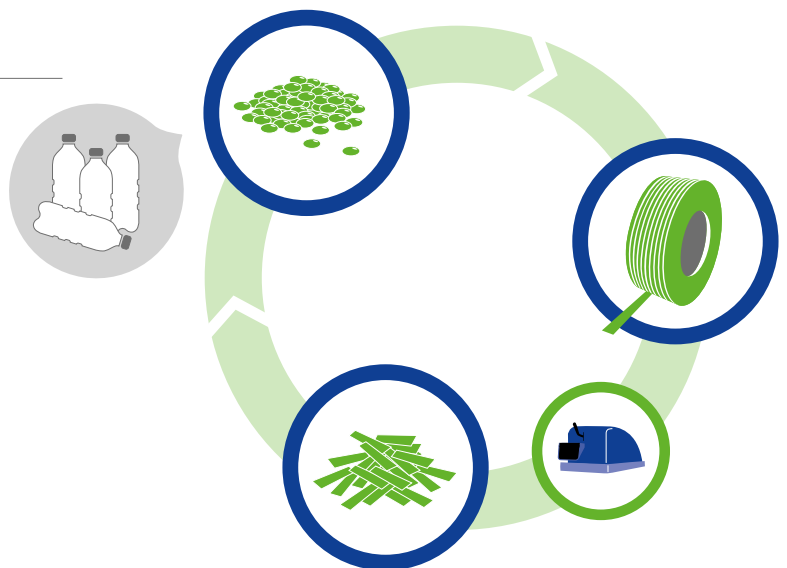

Tidiness and cleanliness at the workplace increase occupational safety. Trip hazards are a thing of the past.

### Performance

Reduces the volume of collected strapping, thus saving storage space and costs.

### Sustainability

Circular concept and raw material savings; 'Strap to Strap' reduces material input and CO<sub>2</sub>.

## Why use a strapping shredder?

- ✓ Sustainable return transport. The PP and PET strapping is comminuted into small shreds.
- ✓ Uncomplicated storage and transport in big bags.
- ✓ The machine is easy to handle and has a long service life.
